## Leeds law firm chooses moveable walls for its meeting rooms

At Mills and Reeve's offices in Leeds, Style worked with contractors, Overbury, to create flexibility in the meeting rooms.

Within the large, open plan meeting area, Style installed a Dorma Huppe Variflex glass moveable wall to create a sizeable meeting room, with pass doors to enable ease of access.

When more than one meeting is taking place, this room can be further sub-divided into two smaller meeting rooms thanks to an additional, intersecting solid Variflex with an Autex Groove patterned acoustic surface to reduce sound reverberation in the room

Both the glazed and the solid moveable walls have an impressive 52db acoustic rating, which means meetings, training sessions and workshops can take place undisturbed.

"This is a really stunning installation and a highly practical solution for Mills and Reeve," said Andy Gibson, Style's director for the north.

"The solid wall is also semi-automatic in operation, and all of the walls are simple and smooth to open and close."
